Background Colors

The background-color property specifies the background color of an element.

Like Colors, you can specify background colors in DocBridge Impress in different ways:

- by color name, for a list of supported colors, see the Colors example
- by HEX value
- by RGB value

Setting Background Colors by Name

This is a text inside a div element.

This paragraph has its own background color.

This is the div element, but no longer the paragraph.

Setting Background Colors by HEX Value

This is a text inside a div element.

This paragraph has its own background color.

This is the div element, but no longer the paragraph.

Setting Background Colors by RGB Value

This is a text inside a div element.

This paragraph has its own background color.

This is the div element, but no longer the paragraph.
