Text fields and textareas

This example shows how text inputs and a text area are rendered without any additional styling, with the default settings.

<input type="text"> defines a text field:

Name some of your favorite ice cream flavors in the fields below

Flavor 1: [   ]

Flavor 2: [   ]

Flavor 3: [   ]

<textarea rows="" cols=""> defines a text box:

Tell us your favorite ice cream story:

[   ]
